PH: Here is a clip from today's NYTimes reporting further about the civil suits vs FBI over SWP mail cover, etc. I think it should be read with care and without total belief. I find it difficult to believe, for example, that Saint Edgar folded his wings in 1963. However, this leaves no doubt that there was a cover on during the time Oswald could have written and we believe did. I will be taking it up with JL. Nice touch: this appears the day Porter pleads guilty to lying to the FBI and he will be punished. But lying by the FBI is not punished, even judicial lying. If JL has tried to get the court papers, this will remind him to tell you and save you the time and trouble. If you have or are getting, please tell him so he won't take the time. HW 1/28/74
